

WELCOME.

Almost 50% of all appointments handled by Starfish in the Social and Public Policy sectors are non-executive. These include Chairs, Committee Chairs, Senior Independent Directors, Trustees, Non-executive Directors, Co-optees, Panel members and Presidents.

The Starfish Board Practice produces topical, insight-led reviews from time to time on a range of different board room subjects. This is our first 'state of the market' update, in which we provide five insights to guide thinking for organisations considering securing new non-executives, and five more for individuals who may be thinking about securing a non-executive appointment on a charity board.

Starfish Board Practice. Defining the times we live in through the people we meet and their own stories. 2024 is our year of hope and optimism.
