The National Lottery Community Fund

Background

The National Lottery Community Fund is the largest single source of community funding in the UK. We support amazing projects that help to strengthen society and improve lives.

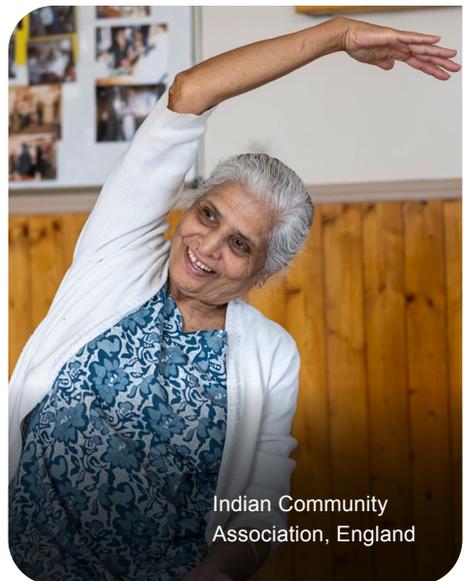

National Lottery players raise over £30 million a week for good causes. We are proud to be one of 12 distributors responsible for awarding this funding across the UK. We fund over 13,000 diverse projects each year, but we don't do it alone. Every day, we work hand in hand with and alongside the projects and communities we fund, creating change both at scale and as grassroots.

We also distribute non-National Lottery funds, working closely with UK Government to develop programmes and distribute funding from the Dormant Assets scheme, supporting youth, financial inclusion and social investment initiatives, alongside community wealth funds.

It Starts With Community, our journey to 2030

Social connections and community activities are at the heart of creating healthier, happier lives and a flourishing society. That's why The National Lottery Community Fund supports amazing community-led projects. And why we're looking to make a bigger difference in the years ahead, by listening and responding to communities and by focusing on supporting bolder change.

We're focusing our efforts where there is greatest need. We're looking to make a bigger difference in the years ahead, both by listening and responding to communities, and being more focused on supporting the greatest impact.

The organisation

The National Lottery Community Fund is established as a non-departmental public body by an Act of Parliament. The Board is responsible for the overall strategic direction of the Fund and for the Fund's governance. It delegates the day-to-day running of the organisation to the Chief Executive and his Senior Management Team.

Funding decisions are delegated to five funding Committees (UK, England, Northern Ireland, Scotland and Wales) and to Executive Officers.

Policy responsibility for The National Lottery Community Fund in England, including setting policy directions, rests with the Department for Digital, Culture, Media and Sport.

The National Lottery Community Fund is governed by a Board. The Board is responsible for setting the Fund's long-term strategy and key policies, and making sure that it is run in an effective and efficient way.

The England Committee

The England Committee sets the direction of our work in England in line with the Fund's strategy direction and decides on our large grants in England. This is an opportune time to join the England Committee, as we are delivering our England Portfolio, launched in November 2024.

We will use a One Fund approach to our grant making, bringing together the many parts of our organisation and rich expertise to deliver transformative funding across England as well as the rest of the UK. The England Committee will have strategic oversight of how we will distribute £3 billion to England's communities by 2030.

We are looking for individuals who will bring exceptional knowledge, skills and experience from the broadest base. In particular we welcome candidates who have regional knowledge, and experience and expertise in the wider public and community funding arena, with knowledge relevant to our four missions and focus areas and senior experience developing partnership and collaborations.

We particularly encourage applicants from underrepresented groups and also welcome applicants who have

achieved success through non-traditional educational routes. We want to ensure any appointee is committed to promoting diversity, in its broadest possible sense.

In England so far in this financial year we awarded over 9,547 grants worth £539.344 million supporting organisations in every local area.

We offer a range of funding support from National Lottery Awards for All, our popular small grants programme; Reaching Communities, our open and responsive programme for grants of more than £20,000 that can last up to five years; to Partnerships offering a larger amount of funding for organisations that work together.

Almost all of our grants (97%) are made to voluntary and community sector organisations. Further information on our England programmes can be found [here](#).

We also collaborate with other funders, charities and individuals, sharing knowledge and building partnerships, and we encourage others to do the same, so we can all be as effective as possible.
