

Candidate Pack

Trustees

Welcome

Dear Applicant,

Thank you for your interest in joining our Board as a Trustee.

The Nationwide Foundation, a charitable company limited by guarantee, was established as a fully independent charitable foundation almost 30 years ago. We are funded by Nationwide, the world largest financial mutual. The Foundation is an important part of the institution's Modern Mutual commitments, 'for the good of society'. Although our charitable purposes are wide, 11 years ago we took the decision to focus our work specifically on strategic and practical solutions to the housing crisis. The lack of decent, affordable housing remains one of the most pressing social problems facing the UK today: it harms individuals, families, communities and society. Our vision, supported by our long-term strategy, is for everyone in the UK to have access to a decent, secure home they can afford.

We're seeking two new Trustees, both with rounded skillsets, to join our Board. This is an exciting time to be part of the Foundation as we navigate unprecedented times across the UK's civil society, and in particular financial and housing sectors, in pursuit of our goals. We are keen to attract candidates who have a good knowledge of corporate trusts and foundations, are pragmatic in style and approach and know what good charity governance looks like. You will also demonstrate a genuine personal commitment to social impact.

If you have expertise in social impact investment, housing policy or delivery (including at a local level), or external affairs, we are particularly interested in hearing from you. Further details about what we are looking for can be found in the section Who we are looking for. You will be joining a highly strategic, engaged and experienced trustee team, including three trustees nominated by the Nationwide. You will also be working with a visionary Chief Executive and strong executive team. Together, the Board drives, oversees and reviews our strategy, ensuring our values and the principles of good grant-making are upheld in the delivery of our objectives.

You will bring strategic reach, an ability to see the bigger picture and sound independent judgement. As ambitious for our growth and impact as we are, your own experience and drive will play a genuine role in bringing about the fundamental changes that help deliver our vision of a society which provides the homes that support people and communities to thrive.

If you share our vision and values, and believe you have the skills, passion, and experience needed to join as Trustee, I look forward to hearing from you.

Saphié Ashtiany
Chair

About us

We are an independent charity that seeks to improve the lives of people in need. We do this by funding charitable causes and influencing for meaningful, long-term, and lasting systems change. We seek to tackle the root causes of social problems that lead to disadvantage, poverty, and inequality.

Key to our approach is creating a legacy, so that fewer people experience negative social outcomes in the future, thanks to timely and innovative intervention today.

The Nationwide Foundation was established by Nationwide Building Society (NBS) in 1997 as a fully independent charitable foundation and company limited by guarantee. NBS is the Foundation's main benefactor and makes an annual lump sum donation of 0.25% of pre-tax profit to the Foundation. NBS also supports us through in-kind donations of office space and equipment and our relationship with the Society is important to both parties.

Our staff are employed by NBS and seconded to the Foundation.

Our purpose is to tackle the root causes of disadvantage, poverty, and inequality.

Our vision is for everyone in the UK to have access to a decent home that they can afford.

Our mission is to increase the availability of decent, affordable homes for people in need by using the learning and evidence from the work we fund, and our own activity, to influence change to the housing system.

We are committed to our Decent Affordable Homes strategy. In recognition of the severity of the housing crisis and the significant changes needed to help create a modern housing system that works for everyone, we have committed to this single focus until at least 2031.

Our Decent Affordable Homes strategy

Our vision

Our vision is for everyone in the UK to have access to a decent home that they can afford.

The lack of decent, affordable housing is one of the most pressing social problems facing the UK today. It causes harm to individuals and families, as well as to communities and society.

We all deserve to have a home that is safe and comfortable, and for it to be somewhere we can be sure we can remain living in for as long as we want or need. However, there is a direct link between housing and poverty. In the UK today, many people are without affordable and decent housing, and as a result, people struggle to establish settled lives or make the most of opportunities for employment, education, home life or relationships.

Through our Decent Affordable Homes strategy, we seek to improve the lives of people who are disadvantaged because of their housing circumstances by using a systems change approach. Our aim is to increase the availability of decent, affordable homes for people in housing need.

Launched in 2013, and running until at least 2031, the Decent Affordable Homes strategy is now in its fourth phase.

Our Strategic Priorities

Make Renting Work for Everyone

We're working to improve the experience of renting across the UK by bringing together tenants, landlords and local partners to create practical, lasting change.

Deliver More Affordable Homes

We're helping deliver more affordable homes by backing innovative, socially driven approaches that increase supply and improve access to decent housing. Through targeted investment, partnerships and evidence-building, we support new ways of delivering homes – strengthening the housing system and creating lasting impact for people and communities.

We're building evidence and influencing policy to drive long-term change.
